5" HOSE FLOAT

NOT TO SCALE

Cebo Flotation Collars are designed to be installed on our offshore rig supply hoses. Once fitted the flotation collars will provide sufficient buoyancy to prevent the supply hose sinking to within the reach of supply vessel propeller, thus preventing unnecessary spillage and hose damage.

Material: High Visibility Orange Durable Reinforced Double Nylon Fabric Outer Material with Flexible Pocket Type Floats, Double Stitched, c/w 20 Brass Eylets and 4 Mt of Lace-Cord

General: 5 Strips 930 x 90 x 90

No. Req'd: BARYTE = 15 Floats per 60' Hose
CEMENT = 9 Floats per 60' Hose
WATER = 4 Floats per 60' Hose
